Subject: FLA 404 draft materials
Attachments: Edits to Comprehensive Section by Section Comments_20180925 (005).docx

Good morning Dave and Matt,

Trey is traveling in the Carolinas to address some Hurricane Florence issues, but we have been in coordination on Florida 404, and he asked that I send this to you so we can keep this conversation moving.

We have revised the proposed comments to reflect David Fotouhi's comments and have run them back by him to make sure we've addressed all his concerns. He has indicated that he is comfortable with these revisions. In summary, all

Ex. 5 Deliberative Process (DP)

There were a couple of areas that were questioned that have been edited, with notes provided below. These are areas our staff felt additional clarity would facilitate review and/or was needed for us to establish program equivalency. The revised comments are attached for your review and the email trail below provides a summary.

Additionally, re: the broader question on guidance provided to date, we have reviewed prior written comments provided to the state. To date, there have only been two written exchanges. The first was a follow-up to our in person meeting with Florida and you all in August. It was a parry from us of a draft of potential MOA language to capture what was discussed at the meeting, and was expressed as such, with the note that it had not been signed off on by you all and that it was sent to facilitate further discussion with the state on the language and approach. We expected, but did not receive, a response to this, as the conversation on ESA continued. The second exchange was the set of comments we sent last week after they were reviewed by you all.

In order to understand if there has been other guidance of concern that was delivered informally during one of our working sessions, I am scheduling a call for us with Noah and John Truitt to ask this question. We will relay anything we hear to you.

Please let us know if you are comfortable with the attached revised comments, and if so we will send them to the state.

Thanks,
Mary
